

Fielding Winery in Stroud

Hiring for a Vineyard Manager

You will be an integral part of helping to grow and maintain the vines throughout the growing season and dormant season. The position may include a mix of weekday and weekend work.

- Performing vineyard duties of pruning, checking shoot positions, vine training and pest and disease identification.
- Keep vineyard records of cultural practices.
- Coordinates workflow and makes daily work assignments.
- Monitors vine health, notifies owners of findings, and may recommend changes to established procedures.
- Participates in planning for vineyard development and maintenance.
- Operates a variety of vineyard equipment such as tractors, forklifts, trucks, mowers, sprayers and ATV's. Maintains vineyard equipment as needed.
- Purchases miscellaneous vineyard supplies within established limits.
- Performs special projects as assigned.

Preferable - At least 2 years of prior experience working in horticultural operations.

On site living accommodation may be available
